<i>Acting Professor of Materia Medica</i>	G. M. C. BIRDWOOD, M.D.
<i>Professor of Surgery</i>	G. R. BALLINGALL, M.D.
<i>Professor of Medical Jurisprudence</i>	W. CAMPBELL, M.D.
<i>Acting Professor of Ophthalmic Surgery</i>	II. J. CARTER, Esq.
<i>Officiating Professor of Midwifery</i>	C. C. MEAD, Esq.
<i>Officiating Professor of Anatomy and Physiology, and Curator of the Museum</i>	II. V. CARTER, M.D.

ANNUAL REPORT.

THE Thirteenth Session of the College, which has now closed, was opened on the
Opening of the Session. 15th of June 1858. The introductory address was delivered by Dr. Campbell, Professor of Medical Jurisprudence.

2. In the month of August, I received charge of the duties of Principal, and Professor of Medicine and Clinical Medicine, from Dr. Giraud.
Change in the Office of Principal.

3. The usual Matriculation Examination was held in the month of April last: seventeen candidates presented themselves. Of these, one Parsee, one Christian convert, one Mussulman, one Portuguese, and five Hindoos—nine in all—were found qualified.
Matriculation Examination.

4. At this Examination, the practice which had been in operation from the establishment of the College, of awarding stipends to those Students who might make a declaration of poverty, was discontinued. The funds theretofore applied to that object have been re-distributed in the form of Scholarships and Exhibitions, to be awarded
Abolition of Stipends.

after competitive examinations. By this change, whilst no portion of the funds has been withdrawn, the eleemosynary feature of the Institution has been in some measure removed, and at the same time sufficient encouragement continues to be afforded to really deserving young men, whose means are limited, to follow the medical profession. [*Appendix A.*]

5. During the Session forty-four Students have attended the classes, viz. twenty-six
Attendance of Students. Parsees, ten Hindoos, two Borahs, four Portuguese, one Mussulman, and one Christian convert. The exigencies of the Public Service have, up to the present time, prevented the re-formation of the class of Student-Apprentices which formerly existed in the College, and the temporary abolition of which was noticed in paragraph 9 of last year's Report; but it is believed that this very desirable object will not be delayed beyond the commencement of the next Session.

6. Great prominence has, from time to time, been given to the circumstance of the
Number of Students. absolute number of Students in the College being small; and this has been attributed by some to a want of taste on the part of the native community for the study of medicine. I am not prepared to deny, in reviewing the history of the College, that there will be found years in which the Students were by far too few in number; but it cannot, I think, be said that at the present time there is, in this respect, any great deficiency, due regard being had to the extent of the field for practical instruction. It was observed by Dr. Morehead in his Report for 1853-54, after an experience of seven years in teaching, that the clinical means of this school are sufficient for a roll of fifty Students; and that, if at any time this

number should be much increased, and the clinical means of instruction undergo no extension, the efficiency and usefulness of the Institution will begin very sensibly to decline. I would desire to be permitted to record my entire concurrence with these views.

7. During the Session now reported upon, there have been in regular attendance upon the classes forty-four Students, being only six less than the number fixed by Dr. Morehead, beyond which, this Medical School, in his opinion, is not at present capable of imparting a complete medical education.

8. But whilst attention has been, perhaps, too prominently drawn to the alleged paucity of Students, the success of the young men educated in this College, in gaining the confidence of their fellow-countrymen, has been kept somewhat in the back ground.

9. It is of comparatively little moment whether five or ten Graduates annually go forth to engage in the Practice of Medicine; but it is of the highest importance that every Graduate should be so educated as to inspire confidence in his professional skill and ability. Looking at the short period within which education, and more particularly medical education, has been in existence in this country, it should hardly be expected that high qualifications and large numbers can go together. The standard of qualification fixed for the Graduates of this College is high; whilst that standard is rigidly maintained, the number of Graduates cannot for some years be large, but so long as the services of each Graduate, from his high professional acquirements, continue to be eagerly sought

by his countrymen and liberally remunerated, a natural law must be reversed, if the complete success of the College is not ultimately insured.

10. Since the last Annual Report there have been several changes amongst the Professors. Dr. Lownds, the Professor of Anatomy and Physiology, having been appointed Surgeon to the Rajpootana Agency, has been succeeded by Dr. Carter, formerly Demonstrator of Anatomy at St. George's Hospital, London. Within the last few days Dr. Ballingall, the Professor of Surgery, has proceeded to England on leave, on private affairs; his chair has been filled by the nomination of Mr. Hunter.

11. The course of study has been conducted in the manner fully detailed in former reports.

12. The conduct of the Students has been in every way irreproachable, and I cannot call to mind any Session, during the fourteen years of my connection with the College, in which there has been evinced more praiseworthy diligence and attention.

13. At the close of the Session twelve candidates presented themselves for First Examination Certificates. Of these nine were found qualified.

14. The Final Examination was conducted by Dr. Arbuckle, the Government Examiner, and three Assessors, viz. Drs. Winchester, Glasse,

and Woosnam. Four Students who, at the Final Examination of the last year, were remanded to their studies, passed a creditable examination. Seven Students, who had completed the prescribed course of study, were examined; five were declared to be qualified.

Number of Students Qualified. 15. As the result of this Examination, diplomas have been granted to nine Students.

16. The wise determination shown by the present Government Examiner and Assessors, at the close of the last Session, to maintain the high standard of qualification, which has from the first been introduced into this College, will, I am confident, exercise a very beneficial influence upon its future prospects.

17. Scholarships have been awarded for proficiency in the various subjects of study.

18. The successful competitors are:—Shaik Abdool Kurrim, Succaram Arjoon, L. P. DeRozario, Khaikhusro Rustomjee, Shantaram Wittul, Burjorjee Byramjee, Framjee Shapoorjee, Abdool Kurrim Lukmonjee, Nusserwanjee Dhunjeebhoy, Furdoonjee Byramjee, Dorabjee Hormusjee, J. N. Mendonça, Munchurjee Byramjee, Byramjee Nowrojee, Cowasjee Hormusjee, and Dossabhoy Pestonjee. [Appendix O.]

19. A prize, of the value of Rs. 100, presented by Sir H. Davison, late Chief Justice of Bombay, has been awarded to Furdoonjee Byramjee, for proficiency in Chemistry.

20. In the 7th paragraph of the Report of last Session, it is stated that "there were at that time within the College a large number of Students who have attained to higher degrees of proficiency in the several subjects of study than their predecessors had done for several preceding years." I am happy to be able to report that the Scholarship Examinations this year have satisfied us that there are now in the College many very promising Students who, I entertain no doubt, will, at a future period, do credit to the education they are receiving.

21. The McLennan Scholarship, for great proficiency in the Principles and Practice of Midwifery, open to the Graduates of the year, has been awarded to Eduljee Nasserwanjee.

22. The Sir Jamsetjee Prize of Rs. 250, for proficiency in Practical Medicine and Surgery, also open for competition to the Graduates of the Session, has been awarded to Burjorjee Framjee.

23. The Sir Jamsetjee Gold Medal, of the value of £16, for proficiency in Practical Medical Jurisprudence, has been awarded to Eduljee Nasserwanjee.

This medal was founded by Sir Jamsetjee Jejeebhoy in the year 1857. Its presentation was recorded in the Report of the Session 1857-58.

The sum of Rs. 4,452 has been paid into the General Treasury, the interest of which, at 4 per cent., will annually provide a gold medal of the value of £16.

24. I hardly know how sufficiently to express our grateful sense of the interest shown by Sir Jamsetjee Jejeebhoy in the success of this College. Since its establishment in the year 1845, he has contributed in founding endowments for the encouragement of the Students, and in providing the means for practical instruction in one very important department, no less a sum than Rs. 49,452, and this is quite exclusive of a Lac and 60,000 Rupees which he had previously contributed towards the building and endowment of the Jamsetjee Jejeebhoy Hospital.

Much as these pecuniary rewards have, undoubtedly, stimulated to application and diligence on the part of the Students, they have not been uninfluential upon their teachers. The generous sympathy with our efforts in the cause of medical education, which these munificent donations so plainly manifested, could not but have the effect of exciting us to increased labour and exertion.

25. The Museum has received some valuable preparations during the year. The principal contributors have been the Director General Medical Department, Drs. Colville, Turner, Buist, McKenzie, Bowie, Glasse, Hunter, Carter, Mead, Ballingall; the Revd. W. K. Fletcher, Messrs. Bhawoo Dajee, Atmaram Pandoorung, and Dheerajram Dulputram.

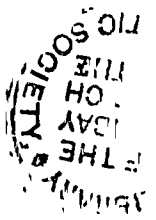

26. The College is indebted to Dr. Ballingall for the donation of a valuable Collection of books, amounting to twenty-seven volumes.

27. The Grant College Medical Society has continued to hold its Monthly Meetings.

28. The usual Appendices, embodying all important details relative to the Proceedings of the Session, are annexed to the Report.

JOHN PEET, M.D., L. R. C. P. L.,
Acting Principal, Grant Medical College.

Bombay, April 1859.

APPENDICES

TO THE

ANNUAL REPORT OF THE GRANT MEDICAL COLLEGE.

THIRTEENTH YEAR.—SESSION 1858-59.

APPENDIX A.

GOVERNMENT SCHOLARSHIPS.

1. At the Matriculation Examination, five Government Scholarships, each of the value of Rs. 10 per mensem; will be annually offered for competition, and will be held by the successful competitors for a period of one year.

2. At the close of the Session, five Government Scholarships, each of the value of Rs. 10 per mensem, will be annually offered for competition to First Year Students, and will be held by the successful competitors for a period of one year.

3. Four Exhibitions, each of the value of Rs. 5 per mensem, to be held for a period of five years, will be annually allotted, under the orders of the Director of Public Instruction, to Pupils of the Mafussil English Schools.

JOHN PEET,
Acting Principal, Grant Medical College.

APPENDIX B.

List of Candidates for Admission as Students into the Grant Medical College, and the Result of the Examinations held on the 22nd, 23rd, and 24th April 1859.

No.	Names.	Caste.	School where Educated.	Qualified or not.	Remarks.
1	L. P. DeRozario	Portuguese	Elphinstone College	Qualified.	Did not join.
2	Succaram Arjoon	Sootar	Elphinstone Institution		
3	Lalloobhoy Nurotumdas	Bania	Surat Govt. English School.		
4	Tukeram Bhagoba	Mahar Convert.	Free General Assembly Inst..		
5	Shaik Abdool Kurim	Mahomedan	Ditto		
6	Shamrao Jugroonath	Purbhoo	Elphinstone Institution		
7	Bajaba Ramchundra	Paist Purbhoo	Poona College		
8	Rustomjee Nasserwanjee	Parsee	Elphinstone Institution		
9	Nanabhoy Nuthuram	Brahmin	Ditto.		
10	J. B. DeSouza	Portuguese	Tanna Govt. English School		
11	Crustnath Balerustna	Purbhoo	Elphinstone Institution	Not Qualified.	
12	Venayek Morojee	Ditto.	Ditto.		
13	Shewshunker Mullojee	Simpey	Free General Assembly Inst.		
14	S. S. Francis	Portuguese	Ditto		
15	Jehangier Hormasjee	Parsee	Elphinstone Institution		
16	Blasker Gopinath	Pulsha	Free General Assembly Inst.		
17	Balerustna Kessernath	Purbhoo	Purbhoo Seminary		

JOHN PEET,
Acting Principal, Grant Medical College.

APPENDIX C.

List of Students in Attendance in the Grant Medical College, during the Session 1858-59.

No.	Names.	Race.	Age on Admission.	Native Town.	In what School Educated.	Date of Admission.	Remarks.

APPENDIX D.

GRANT MEDICAL COLLEGE.

SESSION 1858-59.

SUMMER TERM.

From 15th June to 1st November.

LECTURES.

ON Tuesday the 15th June, the Introductory Lecture will be delivered by Dr. Campbell, at 11 o'clock.

ANATOMY.

<i>Dr. H. V. Carter</i>	{ Monday . . . Wednesday . . Saturday .. }	at 1 P. M.
-------------------------------	--	------------

CHEMISTRY.

<i>Dr. H. Giraud</i>	{ Tuesday .. Thursday .. }	at 12 o'clock.
----------------------------	-------------------------------	----------------

PHYSIOLOGY.

<i>Dr. H. V. Carter</i>	Tuesday ..	at 2 P. M.
-------------------------------	------------	------------

MATERIA MEDICA.

<i>Dr. G. C. M. Birdwood</i>	{ Monday . . . Wednesday }	at 11 A. M.
------------------------------------	-------------------------------	-------------

BOTANY.

<i>Dr. H. Giraud</i>	{ Monday . . . Wednesday . }	at 12 o'clock.
----------------------------	---------------------------------	----------------

PRINCIPLES AND PRACTICE
OF MEDICINE.

<i>Dr. H. Giraud</i>	{ Monday . . . Wednesday . Friday . . . }	at 2 P. M.
----------------------------	---	------------

SURGERY.

<i>Dr. G. Ballingall</i>	{ Tuesday . . . Thursday .. Friday . . . }	at 1 P. M.
--------------------------------	--	------------

OPHTHALMIC SURGERY.

<i>Dr. H. J. Carter</i>	Friday . . .	at 11 A. M.
-------------------------------	--------------	-------------

MIDWIFERY.	
<i>Dr. C. C. Mead</i>	{ Monday.... } at 3 P. M.
	{ Wednesday . }
MEDICAL JURISPRUDENCE.	
<i>Dr. W. Campbell</i>	{ Tuesday .. } at 3 P. M.
	{ Thursday .. }
CLINICAL SURGERY.	
<i>Dr. G. Ballingall</i>	Thursday at 11 A. M.
CLINICAL MEDICINE.	
<i>Dr. H. Giraud</i>	Tuesday at 11 A. M.
PRACTICAL CHEMISTRY.	
<i>Dr. H. Giraud</i>	Friday..... from 11 to 1 o'clock.
OPERATIVE SURGERY.	
<i>Dr. G. Ballingall</i>	{ Tuesday } at 12 o'clock.
	{ Friday..... }

HOSPITAL ATTENDANCE.

<i>Clinical Medical Ward</i>	Daily, at 7 A. M.
<i>Clinical Surgical Ward</i>	Do. at 8 A. M.
<i>Clinical Midwifery Ward</i>	Do. at 4 P. M.
<i>Dispensary Practice</i>	Do. at 8 A. M.

The First and Second Year Students will attend the Hospital daily, at 7 A. M., in rotation, for periods of two months, and will be engaged in compounding and dispensing Medicine.

EXAMINATIONS.

ANATOMY.....	Friday, at 3 P. M.
CHEMISTRY	Saturday, at 11 A. M.
MATERIA MEDICA	Saturday, at 3 P. M.
BOTANY	Saturday, at 12 o'clock.
PHYSIOLOGY	Thursday, at 2 P. M.
SURGERY.....	Wednesday, at 12 o'clock.
OPHTHALMIC SURGERY....	Saturday, at 11 A. M.
MEDICINE	Saturday, at 2 P. M.
MEDICAL JURISPRUDENCE .	Saturday, at 3 P. M.
MIDWIFERY	Friday, at 3 P. M.

During the hours when not engaged in the Lecture-room, the Students will be occupied in reading and note-taking in the Reading-room.

WINTER TERM.

From 1st November to 15th March.

The Lectures and Examinations will be on the same days and at the same hours as during the *Summer Term*, with the exception that there will not be any Lectures upon Ophthalmic Surgery and Botany, those subjects being finished in the *Summer Term*. Practical Toxicology will be taught in the Laboratory every Monday, from 11 o'clock to 1 o'clock.

PRACTICAL ANATOMY.

The Dissecting-Season will be from the 1st November to the 15th March.

1. Each *Junior* Student will be expected to study, practically, during this period, under the superintendence of the Professor of Anatomy and his Assistant, the Anatomy of the Ligaments, Muscles, and the principal Blood-vessels and Nerves.
2. Each *Senior* Student who has not passed the First Certificate Examination will, in like manner, be expected to examine *fully* and *carefully* the Anatomy of the Arteries, Nerves, Viscera, and the more important Surgical regions.
3. Fourth, Fifth, and Sixth Year Students will be expected to study, under the superintendence of the Professor of Surgery, the various Surgical regions, and to connect with such examination the performance of Surgical operations.
4. To ensure a compliance with these Regulations, a Register will be regularly kept by the Professors of Anatomy and Surgery, according to a prescribed form. These Registers will be laid before the Examiners at the First Certificate and Final Examinations.
5. A Roll will be called in the Dissecting-room at 11 o'clock, 2 o'clock, and 4 o'clock.
6. During the Winter Season, the Second and Third Year Students will only attend those Examinations in Anatomy and Physiology which are held on Thursday and Friday.

ROLL-CALLS.

The College hours are from 10 A. M. to 4 P. M. A Roll-call will take place before the commencement of each Lecture and Examination, as well as in the Clinical Wards.

From the 15th March to the 15th April the Examinations will be held for Diplomas, Honours, and the classification of the Students.

Order of the Lectures and Examinations during the Day.

	11 to 12 A. M.	12 to 1 P. M.	1 to 2 P. M.	2 to 3 P. M.	3 to 4 P. M.
MONDAY.	Materia Medica.	Botany.	Anatomy.	Medicine.	Midwifery.
TUESDAY.	Clinical Medicine.	Operative Surgery. Chemistry.	Surgery.	Physiology.	Medical Jurisprudence.
WEDNESDAY	Materia Medica.	Botany. Examination Surgery.	Anatomy.	Medicine.	Midwifery.
THURSDAY.	Clinical Surgery.	Chemistry.	Surgery.	Examination Physiology.	Medical Jurisprudence.
FRIDAY.	Practical Chemistry. Ophthalmic Surgery.	Operative Surgery. Practical Chemistry.	Surgery.	Medicine.	Examination Anatomy. Examination Midwifery.
SATURDAY.	Examination Chemistry. Examination Ophthalmic Surgery.	Examination Botany.	Anatomy.	Examination Medicine.	Examination Medical Jurisprudence. Examination Materia Medica.

HERBERT GIRAUD, M.D.,
Acting Principal.

Acting Surgeon, Jamsetjee Jejeebhoy Hospital.

APPENDIX H.

Register of Cases treated in the Clinical Surgical Ward, during the Session 1858-59.

Diseases.	Admitted.	Discharged.	Died.	Remarks.
Abscess	7	7	..	Compression—Cure.
Aneurism of Femoral Artery	1	1	..	
Burn	1	1	..	
Cancer of Tongue	1	1	..	
Carbuncle	1	1	..	
Cicatrix of Burn, with Contraction	2	2	..	
Contusion	3	3	..	
Diseases of Bones	2	2	..	Amputation of Fore-arm in one.
{ Caries ..	2	2	..	
{ Necrosis ..	3	3	..	
Diseases of Joints ..	2	2	..	
{ Scrofulous Disease of Elbow ..	1	1	..	
{ Synovitis ..	1	1	..	
Diseases of Rectum ..	1	1	..	
{ Fissure of Anus ..	1	1	..	
{ Fistula in Ano ..	1	1	..	
and Anus	1	1	..	
{ Hemorrhoids, Internal ..	1	1	..	
{ Prolapsus Ani ..	1	1	..	

Diseases of Urinary and Genital Or- gans.....	Calculus, Urethral	1	1	Extensive extravasation—Excision—Cure.
	" Vesical	5	5	Lateral Lithotomy in all.
	Fistula Urinary	1	1	Urethra obliterated by a wound.
	Fungus Testis	2	2	Castration in one.
	Gonorrhoea	4	4	
	Hæmatocele	2	1	1 a
				Castration in both; (a) death from dysentery and sloughing.
	Hypertrophy of Scrotum	3	2	1 b
	Orchitis	3	3	(b) Removal, died of shock.
	Retention of Urine	1	1	
	Stricture of Urethra	3	3	Perineal section in one.
	Warts	1	1	
				Effusion at base.
	Of Skull	1	1	
	Nasal Bones	1	1	
	Clavicle	1	1	Fibula also broken.
	Scapula	2	2	
	Humerus	3	2	1 c
	Fore-arm	4	4	(c) Ribs also fractured, death from shock.
	Ribs	2	2	
	Femur	4	4	In one case both fore-arms fractured.
	Leg	3	3	
Fractures.....	Of Skull	1	1	Depressed fracture—Elevation.
	Humerus	2	1 d	(d) Amputation primary; (e) died of shock.
	Hand	9	9	Amputation at wrist in one, partial amputation in several.
	Compound & Compound Comminuted.	1	1	Also compound fracture of arm and of the other leg.
	Femur	2	2	
	Leg	1	1	Amputation at ankle.
	Foot	1	1	
	Lower Jaw.....	1	1	

Diseases.	Admitted.	Discharged.	Died.	Remarks.
Gangrene of Foot	1	1	..	Amputation of leg.
Hare-lip	1	1	..	Operation—Cure.
Hernia, Strangulated Inguinal	1	..	1	Operation.
Laryngitis Chronic	2	2	..	Tracheotomy in both patients, discharged wearing tube.
Lupus	1	1	..	
Scrofulous Enlargement of Glands	1	1	..	
Syphilis	15	15	..	
{ Primary	13	13	..	
{ Secondary	1	1	..	Hydrocele of neck, Iodine injection—Cure.
{ Encysted	1	1	..	Removal.
{ Fibrous	1	1	..	
{ Malignant	3	3	..	Removal of the largest tumour.
{ Molluscum	1	1	..	One from frost-bite of feet; both legs amputated.
Ulcers	2	2	..	
{ Contused and lacerated	2	2	..	
{ Incised	4	4	..	
{ Penetrating of Abdomen	1	1	..	Protrusion of intestine; recovery, with Ventral Hernia.
Total.....	148	140	8	

G. R. BALLINGALL,
Professor of Surgery.

*Table of Capital and Minor Operations performed in
presence of or by the Students during the Session
1858-59.*

Operations.	No.
Amputation of Leg	2
Ditto of Arm	1
Ditto of Fore-arm.....	1
Ditto at Wrist	1
Ditto of Fingers and Toes	5
Lithotomy	5
Removal of Tumours	16
Ditto of Necrosed Bone	7
Ditto of Hypertrophied Scrotum	1
Ditto of ditto Labia	1
Ditto of Elongated Uvula	2
Ditto of Nails	2
Ditto of Urethral Calculus	3
Tapping Hydroceles	78
Ditto Cysts	5
Extracting Teeth	182
Passing Catheters and Sounds	102
Opening Abscesses and Sinuses	182
Division of Cicatrix of Burn	2
Ditto of Stricture of Urethra	1
Circumcision	14
Castration	3
Tracheotomy	2
Operation for Strangulated Hernia	1
Ditto Imperforate Anus	2
Ditto Harelip	1
Trephining	1
Ligaturing Tumours	2
Incisions	3
Total....	628

G. R. BALLINGALL,
Professor of Surgery.

GRANT MEDICAL COLLEGE.

THE ANNUAL EXAMINATIONS at the Grant Medical College will commence on *Monday*, the 14th March, and be conducted in the following manner :—

I.—EXAMINATION OF CANDIDATES FOR “FIRST EXAMINATION” CERTIFICATES.

Monday, 14th March.—Practical Anatomy.

Tuesday, 15th.—Written examination in Anatomy and Physiology.

Wednesday, 16th.—Written examination in Chemistry.

Thursday, 17th.—Oral examination in Anatomy.

Friday, 18th.—Written examination in Materia Medica.

Monday, 21st.—Oral examination in Chemistry.

Tuesday, 22nd.—Oral examination in Materia Medica and Botany.

Wednesday, 23rd.—Oral examination in Physiology.

Thursday, 24th.—Practical Chemistry and Pharmacy.

II.—EXAMINATION OF CANDIDATES FOR THE DIPLOMA OF GRADUATE, CONDUCTED BY THE GOVERNMENT EXAMINER AND ASSESSORS.

Friday, 25th March.—Written examination in Medicine.

Saturday, 26th.—Written examination in Surgery.

Monday, 28th.—Practical Surgery.

Tuesday, 29th.—Oral examination in Medicine.

Thursday, 31st.—Oral examination in Surgery.

Friday, 1st April.—Written examination in Midwifery.

Saturday, 2nd.—Written examination in Medical Jurisprudence.

Tuesday, 5th.—Oral examination in Midwifery.

Thursday, 7th.—Oral and Practical examination in Medical Jurisprudence.

III.—EXAMINATION OF COLLEGE STUDENTS.

First and Second Year Students.

Tuesday, 15th March.—Written examination in Anatomy and Physiology.

Wednesday, 16th.—Written examination in Chemistry.

Friday, 18th.—Oral examination in Anatomy and Physiology.

Tuesday, 22nd.—Oral examination in Materia Medica and Botany.

Wednesday, 23rd.—Oral examination in Chemistry.

Thursday, 24th.—Practical Chemistry and Pharmacy.

Third and Fourth Year Students.

Friday, 25th March.—Written examination in Medicine and Surgery.

Saturday, 26th.—Oral examination in Medicine, Surgery, and Ophthalmic Surgery.

Saturday, 2nd April.—Oral examination in Midwifery and Medical Jurisprudence.

IV.—EXAMINATION FOR SCHOLARSHIPS AND PRIZES

NOTIFIED ON 19TH OCTOBER 1858.

Fourth Year Students who have qualified for "First Examination" Certificates.—Carnac and Anderson Scholarships, on 25th March, in the Dissecting-room; 29th and 31st March, and 1st and 2nd April in the Clinical Wards.

Graduates.—Sir Jamsetjee Jejeebhoy Prize and Gold Medal, and McLennan Scholarship, on 8th, 9th, and 12th April.

W. ARBUCKLE, M.D.,

JOHN PEET, M.D.,

Government Examiner.

Acting Principal, Grant Medical College.

Bombay, 7th March 1859.

APPENDIX L.

FIRST CERTIFICATE EXAMINATION.

ANATOMY.

Describe the parts met with in the Dissection of the right Inguinal Region, beginning at the Skin, and extending to the Peritoneum. Enumerate the Coverings of Inguinal Hernia, and state the chief anatomical distinctions of direct (internal) and oblique (external) Inguinal Hernia.

2. How is the Circle of Willis formed, and what parts at the base of the Brain are included within it ?

3. Describe the Urinary Bladder in the Male subject.

PHYSIOLOGY.

1. Trace the Chyle from the Cavity of the small Intestine to its final destination.

2. What are the Functions of the Spinal Cord ?

3. Describe the Action of the Heart, and state the causes which are supposed to give rise to the Sounds of the Heart.

II. V. CARTER, M.D.,

Officiating Professor of Physiology.

CHEMISTRY.

1. Give some examples of Latent and Specific Caloric ; and explain them.

2. Explain, in a general way, the mutual relations of Magnetism, Frictional and Voltaic Electricity.

3. Explain the principles upon which the Metals may be arranged in groups for analytic distinction from each other.

4. Give an account of the Chemical relations of Ammonia, Ammonium, and Ammidogen.

HERBERT GIRAUD, M.D.,
Professor of Chemistry and Botany.

MATERIA MEDICA.

1. Name the officinal preparations of which Opium is a constituent, and state what dose of each is equal to one grain of that drug.

2. Compare and contrast the actions of Castor Oil, Senna, Rhubarb, Aloes, Jalap, Scammony, Colocynth, Gamboge, Croton Oil, and Elaterium.

3. In using Arsenic, Foxglove, Strychnine, what symptoms warn you to leave them off?

4. State the method of preparing Quinine, and the Chemical changes which occur in the Process.

GEORGE BIRDWOOD, M.D.,
Officiating Professor of Materia Medica.

Grant Medical College,
March 18th, 1859.

APPENDIX M.

Report of the Final Examination of the Grant Medical College.

To H. YOUNG, Esq.,

Chief Secretary to Government, General Department.

SIR,—The Final Diploma Examinations of the Students of the Grant Medical College having terminated on the 7th instant, I have the honour to submit a Report of the same for the information of Government and the Director of Public Instruction.

2. The Examinations were conducted, as in former years, with the aid of Drs. Winchester, Glasse, and Woosnam, as Assessors.

3. Eleven Candidates presented themselves for Examination, and the following nine were found qualified to receive the Diploma, viz. :—

Eduljee Nasserwanjee.	Manockjee Aderjee.
Burjorjee Framjee.	Rustomjee Cawasjee.
Bhicajee Amroot.	Pestonjee Bomanjee.
Wamon Wassoodave.	A. P. DeAndrade.

Jejeebhoy Bazonjee.

4. The final result of the Examinations this year is, therefore, a very gratifying one for me to communicate, and it has likewise given great satisfaction to the Assessors and myself to find, that in maintaining the high standard of qualification alluded to in last year's Report, the hopes of the Students have in no way been discouraged, but, on the contrary, they have been stimulated to increased exertion, as is proved by the unsuccessful

candidates of last year having now become qualified to receive, with credit, the Diplomas which it was previously found necessary to withhold.

5. Six of these Graduates, viz. :—

Eduhjee Nasserwanjee,
 Burjorjee Framjee,
 Bhicajee Amroot,
 Wamon Wassoodave,
 Pestonjee Bomanjee,
 A. P. DeAndrade,

having expressed their desire to enter the Government Service, I beg to submit, for the favourable consideration of Government, their being appointed Sub-Assistant Surgeons.

I have the honour to be, &c.

(Signed) W. ARBUCKLE,
 Government Examiner.

Bombay, 12th April 1859.

Result of Diploma Examination.—Session 1858-59.

Government Examiner.

DIPLOMA EXAMINATION.

MEDICINE.

1. What are the principal morbid conditions of the Urine, and how are they to be detected? Name the chief Diseases indicated by such morbid conditions.

2. Describe the Symptoms and Physical Signs of incipient and advanced Phthisis; the Treatment to be adopted in each.

3. State the Symptoms and Progress of a case of Hemiplegia from Cerebral Softening. Which are the Muscles usually affected; and to what Pathological changes is Hemiplegia due? Your Prognosis and Treatment to be observed in cases of Hemiplegia.

4. Describe the Symptoms of Acute Rheumatism. What Texture and what Organs are affected by the Disease? The Treatment to be adopted in Acute Rheumatism.

5. Describe the Symptoms, Causes, and Pathology of Scurvy; how they differ from those of Purpura. The Treatment to be observed in Scurvy.

March 25th, 1859.

SURGERY.

1. Describe how Urinary Perineal Fistulæ are formed, their chief Causes, and the appropriate modes of Treatment.

2. Describe the distinctive character of Phlegmonous, Erysipelatous, and Diffuse Cellular Membranous Inflammation; the Treatment best adopted to each.

3. Describe the different forms of Chancre; state the course of Symptoms in Secondary and Tertiary Syphilis, and the Treatment to be observed.

4. Describe the Symptoms, Causes, and Treatment of Acute and Chronic Inflammation of the Lacrymal Sac. In opening the Sac, what would be your guide?

5. State the Symptoms and Treatment of Fracture of the Clavicle.

March 26th, 1859.

MIDWIFERY AND DISEASES OF WOMEN AND CHILDREN.

1. What are the Symptoms of Pregnancy? Mention those on which you can with certainty rely; and state the Signs which indicate the death of the Child in Utero.

2. State the Diagnosis of a Breech Presentation, how it may be distinguished from Shoulder and Face Presentations; and describe the Treatment and mode of delivery to be adopted in Breech and Shoulder Presentations.

3. Describe what is meant by "Hourglass Contraction" of the Uterus, the dangers attending it, and the treatment.

4. State the more common causes of Menorrhagia, and the treatment to be adopted in this Disease.

5. State the Diagnosis of Chicken-Pox, Measles, and Scarlatina, and the Treatment of such Diseases.

April 1st, 1859.

MEDICAL JURISPRUDENCE.

1. In investigating a case of Infanticide, what are the proofs of the Child having been born alive? State those proofs in detail which would enable you to give a decided opinion before the Coroner.

2. State the Symptoms and *post-mortem* appearances in Acute Arsenical Poisoning, and how the Poison is to be detected by Chemical Analysis.

3. Describe the character of Wounds inflicted before and after death, and how Blood-stains may be recognised and distinguished from marks of iron rust and red dyes.

4. Describe the Symptoms and morbid appearance produced by Narcotic Poisoning, the Diseases with which such Poisoning may be confounded, and state, in detail, how they differ.

W. ARBUCKLE, M.D.,
Government Examiner.

April 2nd, 1858.

*Copy of the Resolution of Government, dated 28th
April 1859.*

The Right Honorable the Governor in Council is much gratified at the result of the late Examination. The soundness of the decision arrived at to maintain the highest standard of qualifications is fully vindicated by the fact, that nine of the eleven candidates who presented themselves for Examination, have been found qualified to receive the Diploma. The unsuccessful result of last year may now be confidently attributed to temporary causes, the recurrence of which may be avoided for the future.

2. The six Graduates who have expressed their desire to enter the Government Service, should be appointed Sub-Assistant Surgeons, as recommended by Dr. Arbuckle in the last paragraph of his letter.

3. The thanks of Government should be communicated to Dr. Arbuckle, and to Drs. Winchester, Glasse, and Woosnam, who have aided him as Assessors.

4. A copy of Dr. Arbuckle's letter, and of its Resolution, should, as usual, be appended to the Annual Report of the Grant Medical College, which will be included in the General Educational Report of the Presidency.

APPENDIX N.

GRANT MEDICAL COLLEGE.

NOTIFICATION.

The following SCHOLARSHIPS and PRIZES will be OPEN for COMPETITION at the close of the Session 1858-59, viz. in the month of April 1859 :—

I.

To Fourth Year Students, who have passed for "First Examination Certificates."

A CARNAC Scholarship, of Rs. 15 monthly, for proficiency in conducting the duties of Clinical Clerk, and in knowledge of Practical Medicine and Pathology. The Examination will be conducted in the Clinical Ward and in the Dissecting-room.

An ANDERSON Scholarship, of Rs. 15 monthly, for proficiency in conducting the duties of Surgical Dresser, and in knowledge of Practical Surgery and Surgical Anatomy. The Examination will be conducted in the Clinical Surgical Ward, and in the Dissecting-room.

A FARISH Scholarship, of Rs. 15 monthly, for proficiency in the Principles and Practice of Medicine and Surgery.

A REID Scholarship, of Rs. 15 monthly, for proficiency in the Second Degree in Medicine and Surgery.

A CARNAC Scholarship, of Rs. 15 monthly, for proficiency in Midwifery and Medical Jurisprudence.

II.

To Third Year Students, who have qualified for "First Examination Certificates."

A FARISH Scholarship, of Rs. 15 monthly, for proficiency in Anatomy and Physiology. The Examination will be partly conducted in the Dissecting-room.

A CARNAC Scholarship, of Rs. 10 monthly, for proficiency in the Second Degree in Anatomy and Physiology. The Examination will be partly conducted in the Dissecting-room.

A FARISH Scholarship, of Rs. 15 monthly, for proficiency in Materia Medica and Practical Pharmacy. The Examination will be partly conducted in the Hospital Dispensary.

A CARNAC Scholarship, of Rs. 15 monthly, for proficiency in Chemistry.

AN ANDERSON Scholarship, of Rs. 15 monthly, for proficiency in Practical Chemistry.

III.

To Second Year Students.

AN ANDERSON Scholarship, of Rs. 15 monthly, for proficiency in Anatomy and Physiology.

AN ANDERSON Scholarship, of Rs. 15 monthly, for proficiency in Chemistry, Theoretical and Practical.

A FARISH Scholarship, of Rs. 15 monthly, for proficiency in Materia Medica and Practical Pharmacy.

A REID Scholarship, of Rs. 15 monthly, for proficiency in Practical Chemistry.

IV.

To First Year Students.

1. GOVERNMENT Scholarship, of Rs. 10 monthly, for proficiency in Anatomy.

2. GOVERNMENT Scholarship, of Rs. 10 monthly, for proficiency in Chemistry.

3. GOVERNMENT Scholarship, of Rs. 10 monthly, for proficiency in Second Degree in Anatomy.

4. GOVERNMENT Scholarship, of Rs. 10 monthly, for proficiency in Second Degree in Chemistry.

5. GOVERNMENT Scholarship, of Rs. 10 monthly, for proficiency in the Subjects of Study during the Session.

SIR JAMSETJEE JEJEEBHAY'S Medical Prize of Rs. 250, open for competition to the Graduates of the Session, will be awarded for proficiency in Practical Medicine and Surgery.

SIR JAMSETJEE JEJEEBHAY'S Gold Medal, open for competition to the Graduates of the Session, will be awarded for proficiency in Medical Jurisprudence.

The McLENNAN Scholarship, of Rs. 25 monthly, with a Silver Prize Medal, open for competition to the Graduates of the Session, will be awarded for great proficiency in the Principles and Practice of Midwifery.

The Examinations for these Prizes and Scholarships will be conducted, after the close of the Diploma Examinations, by the Principal, and Professor of Medicine, Surgery, Midwifery, and Medical Jurisprudence, chiefly in the Clinical Ward of the Hospital, and in the Dissecting-room.

Graduates desirous of competing are required to intimate their intention to the Principal of the College after the termination of the Diploma Examination.

(Signed) JOHN PEET,

Acting Principal, Grant Medical College.

Bombay, Grant Medical College,

19th October 1858.

E. I. HOWARD,

Director of Public Instruction.

APPENDIX O.

Scholarships awarded to the Students of the Grant Medical College at the close of the Session 1858-59.

FIRST YEAR STUDENTS.

A GOVERNMENT SCHOLARSHIP, of Rs. 10 monthly, for proficiency in the Subjects of Study during the Session, to *Shaik Abdool Kurrim*.

A GOVERNMENT SCHOLARSHIP, of Rs. 10 monthly, for proficiency in Chemistry, to *Shaik Abdool Kurrim*; but as he already holds a Scholarship, this will pass to the next in proficiency, viz. to *Succaram Arjoon*.

A GOVERNMENT SCHOLARSHIP, of Rs. 10 monthly, for proficiency in Anatomy, also to *Shaik Abdool Kurrim*; but as he holds a Scholarship, this will pass to the next in proficiency, viz. to *L. P. DeRozario*.

Two other GOVERNMENT SCHOLARSHIPS, for proficiency in the 2nd Degree in Anatomy and Chemistry, have not been awarded, the standard fixed not having been reached.

SECOND YEAR STUDENTS.

AN ANDERSON SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Anatomy and Physiology, to *Khaikhusroo Rustomjee*.

AN ANDERSON SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Chemistry, Theoretical and Practical, also to *Khaikhusroo Rustomjee*; but as he holds a Scholarship, it will pass to *Shantaram Wittul*.

A FARISH SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Materia Medica and Practical Pharmacy, to *Burjorjee Byramjee*.

A CARNAC SCHOLARSHIP, of Rs. 10 monthly, for proficiency in Practical Chemistry, has been awarded to *Burjorjee Byramjee*; but as he holds a Scholarship, it should pass to the next Student who does not hold a Scholarship. This is *Nasserwanjee Jehangeerjee*, but as this Student does not come up to the prescribed Standard, the Scholarship has not been awarded.

THIRD YEAR STUDENTS.

A FARISH SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Anatomy and Physiology, to *Framjee Shapoorjee*.

A CARNAC SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Chemistry, to *Abdool Kurrim Lukmonjee*.

A FARISH SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Materia Medica and Practical Pharmacy, to *Nasserwanjee Dhunjeebhoy*.

A REID SCHOLARSHIP, of Rs. 15 monthly, for proficiency in Practical Chemistry, to *Furdoonjee Byramjee*.

AN ANDERSON SCHOLARSHIP, of Rs. 15 monthly, for the 2nd Degree of proficiency in Anatomy and Physiology, to *Dorabjee Hormasjee*.

FOURTH YEAR STUDENTS.

A CARNAC SCHOLARSHIP, of Rs. 15 monthly, for proficiency in conducting the duties of Clinical Clerk, and in knowledge of Practical Medicine and Pathology, to *J. N. Mendonça*.

AN ANDERSON SCHOLARSHIP, of Rs. 15 monthly, for proficiency in conducting the duties of Surgical Dresser, and in knowledge of Practical Surgery and Surgical Anatomy, to *Muncherjee Byramjee*.

A FARISH SCHOLARSHIP, of Rs. 15 monthly, for proficiency in the Principles and Practice of Medicine and Surgery, to *J. N. Mendonça*; but as he holds a Scholarship, it will pass to the next in proficiency, *Muncherjee Byramjee*, but as he also holds a Scholarship it will pass, viz. to *Byramjee Nowrojee*.

A REID SCHOLARSHIP, of Rs. 15 monthly, for proficiency in the 2nd Degree in Medicine and Surgery, to *Gowasjee Hormasjee*.

A CARNAC SCHOLARSHIP, of Rs. 15 monthly, for proficiency

in Midwifery and Medical Jurisprudence, to *Muncherjee Byramjee*; but as he holds a Scholarship, it will pass to the next in proficiency, *J. N. Mendonça*; but as he also holds a Scholarship, it will pass, viz. to *Dossabhoy Pestonjee*.

THE SIR JAMSETJEE JEJEEBHAY MEDICAL PRIZE, of Rs. 250, for proficiency in Practical Medicine and Surgery, to *Byrjorjee Framjee*.

THE MCLENNAN SCHOLARSHIP, of Rs. 25 monthly, with a Silver Prize Medal, for great proficiency in the Principles and Practice of Midwifery, to *Eduljee Nusserwanjee*.

THE SIR JAMSETJEE JEJEEBHAY GOLD MEDAL, for proficiency in Practical Medical Jurisprudence, to *Eduljee Nusserwanjee*.

JOHN PEET,
Acting Principal, Grant Medical College.

APPENDIX P.

Written Questions in Anatomy, Chemistry, Physiology, and Materia Medica, to First and Second Year Students; and Medicine, Surgery, Midwifery, and Medical Jurisprudence to the Third and Fourth Year Students.

FIRST YEAR'S STUDENTS.

Anatomy.

1. Describe the Frontal Bone.
 2. Classify the Articulations, and state what movements Joints are capable of, giving illustrations.
 3. How do you arrange the Muscles of the Leg? Give their Names and Attachments.
-

SECOND YEAR'S STUDENTS.

Anatomy.

1. Describe all the Muscles of the Thumb, mentioning their Actions, and the sources of their nervous influence.
2. Enumerate the parts seen in the Dissection of the Sole of the Foot.
3. The Course, Relations, and Branches (with their distribution) of the Axillary Artery.

Physiology.

1. The minute structure of Bone.
2. The microscopic appearances, and the general chemical composition, of nervous tissue. What functions do you attribute to Nerve-fibres, and Nerve-vesicles? Give your reasons.
3. What changes occur in the Air breathed, and in the Blood during respiration?

H. V. CARTER, M. D.,
 Officiating Professor of Physiology.

FIRST YEAR'S STUDENTS.

Chemistry.

1. Give an example of Double Elective Affinity ; explain it, and represent it in Symbols.
 2. Give some examples of the Convection of Caloric, and explain them.
 3. What are the leading qualities of Acids, Bases, and Salts? Give examples of each of these classes of Substances, and represent them in Symbols.
 4. State the General Composition, and the leading qualities of the Saccharine and Amylaceous Substances.
-

SECOND YEAR'S STUDENTS.

Chemistry.

1. Explain the Natural Formation of Dew, and the Phenomena of the Land and Sea Breezes.
2. State the Law of Equivalent Composition, and explain it by the Atomic Hypothesis.
3. How may Chlorine be prepared, and what are its Properties and Uses?
4. What is the Alcoholic Fermentation, and what are the Chemical changes that occur in it?

HERBERT GIRAUD, M.D.,
Professor of Chemistry and Botany.

SECOND YEAR'S STUDENTS.

Materia Medica.

1. Compare the Effects of Opium and *Churrus* (extract of *Cannabis Sativa*, var *Indica*).
2. What are the Constituents of—
 - a "Extractum Colocynthis Compositum ;
 - b "Liquor Arsenicalis ;"
 - c "Liquor Hydrargyri Bichloridi ?"
3. Compare and contrast the Actions of Tartar Emetic,

Sesquicarbonate of Ammonia, Sulphate of Zinc, Sulphate of Copper, Mustard and Ipecacuanhâ, as Emetics only.

4. Name the Official Solanaceæ.

GEORGE BIRDWOOD, M.D.,
Acting Professor of Materia Medica.

Grant Medical College,
March 18th, 1859.

THIRD YEAR STUDENTS. ●

Questions in Medicine.

1. Explain the state of the Blood and of the Capillary Vessels in congestion, determination of Blood, and inflammation.
2. Describe the several forms of Fever, which are dependent upon local irritation.
3. State the circumstances which indicate, and those which contra-indicate the use of depleting measures in the treatment of acute diseases.

FOURTH YEAR STUDENTS.

1. Mention those diseases of the Chest, which, in some of their stages, are attended with dulness on percussion. State the distinctive physical signs between Pleuritis with effusion and the second stage of Pneumonia.
2. Describe the appearances found after death in cases of Dysentery.
3. What principles would guide you in the use of Mercury in the treatment of Acute Diseases?

JOHN PEET, M.D.,
Acting Professor of Medicine.

THIRD YEAR STUDENTS.

Questions in Surgery.

1. Describe the process of healing by Granulation and Cicatrisation.

2. What are the signs by which Hydrocele may be diagnosed from other Scrotal Tumours? Describe the radical treatment.
3. Describe the pathology and treatment of Carbuncle.

Fourth Year Students.

1. Explain the principles of treatment of wounds of large arteries.
2. State the conditions favourable to the performance of Lithiotomy.
3. Describe the pathology and treatment of Fungus Testis.

G. R. BALLINGALL, Professor of Surgery.

QUESTIONS IN MIDWIFERY.

1. Describe the anatomy of the mature Gräafian Follicle from within outwards, and explain the changes which take place during ordinary or Virgin Ovulation.
2. Describe the movements of the Fœtal Head in its passage through the Pelvis, under the terms obliquity, rotation, flexion, extension, and restitution.
3. Mention the causes, symptoms, and treatment of Post-partum Hæmorrhages.
4. Explain the peculiarities of early Infancy with reference to respiration, circulation, and calorification, and their bearing on disease.

C. C. MEAD,

March 31st, 1859. Officiating Professor of Midwifery.

QUESTIONS IN MEDICAL JURISPRUDENCE.

1. Circumstances that modify the Medico-legal character of Wounds, and that vary the liability of the inflicter?
2. Differences in immediate and remote effects between Poisoning by Arsenious Acid and Corrosive Sublimate?
3. Principal forms of Mental Disease, and the more striking characters of each?

W. CAMPBELL, M.D.,

5th April 1859. Professor of Medical Jurisprudence.

APPENDIX Q.

Result of Examination of First Year Students.
Session 1858-59.

No.	Names.	Anato- my.	Chemis- try.	Practical Phar- macy.	Total.*
1	Shaik Abdool Kurrim	1	1	3	5
2	L. P. De Rozario	2	3	1	6
	Succaram Arjoon	2	2	2	6
3	Lalloobhoy Nurotumdas ..	4	4	4	12
4	Shamrow Juggoonath	3	6	5	14
5	Tukaram Bhagoba	4	5	6	15
6	Nanabhoy Nuthuram	5	7	6	18

* The lowest number marks the greatest merit.

JOHN PEET, M.D.,
 Acting Principal.

Result of Examination of Second Year Students.—Session 1858-59.

No.	Names.	Anatomy.	Physiology.	Chemistry.	Materia Medica.	Botany.	Practical Chemistry and Pharmacy.	Total.*
1.	Kaikhuro Rustomjee.....	1	1	1	1	2	2	8
2	Shantaram Wittul	2	2	2	3	1	3	13
3.	Burjorjee Byramjee.....	3	2	3	2	3	1	14
4	Nasserwanjee Jehangirjee	4	3	4	4	3	4	22

* The lowest number marks the greatest merit.

JOHN PEET, M.D.,
Acting Principal.

Result of Examination of Third Year Students.—Session 1858-59.

No.	Names.	Medicine.	Surgery.	Total.*	Remarks.
1	Framjee Shapoorjee.....	1	1	2	
2	Dorabjee Hormasjee	2	2	4

JOHN PEET, M.D.,
Acting Principal, Grant Medical College.

APPENDIX S.

DONATIONS TO THE LIBRARY.

From G. R. Ballingall, Esq., M.D.

Traite des diverses Amputations, by Monsr. Maingault.

Principles of Human Physiology, by W. B. Carpenter, M.D.,
F.R.S.

Principles of Physiology, General and Comparative, by W.B.
Carpenter, M.D., F.R.S.

Outlines of Comparative Physiology, by Louis Agassiz and A.
A. Gould.

Hand-book of Organic Analysis.

A Treatise on Auscultation and Percussion, by Skoda;
translated by W. O. Markham, M.D.

Recent advances in the Physiology of Motion, the Senses,
Generation, and Development, by W. Baly, M.D., F.R.S., and
W. S. Kirkes, M.D.

Physiologie Pathologique, by Monsr. H. Lebert, 2 vols, with
Atlas.

Practical Observations on Aural Surgery, and the Nature and
Treatment of Diseases of the Ear, by W. R. Wilde, Esq.

Comparative Anatomy of the Invertebrata, by C. T. Siebold
and H. Stannius; translated from the German, and edited, with
Notes and Additions recording the Recent Progress of the
Science, by W. J. Burnett, M.D. Vol. I.

Hand-book of Organic Chemistry, by W. Gregory, M.D.;
F.R.S.E.

Hand-book of Physiology, by W. S. Kirkes, M.D.

Diseases of the Heart and Aorta, by W. Stokes, Esq.

Elemens de Pathologie Generale, by Monsr. A. F. Chomel.

Lectures on Histology delivered at the Royal College of Sur-

geons of England, in the Sessions, 1850-51 and 1851-52, by J. Quekett, Esq.

A Text-book of Physiology, by Dr. G. Valentin; translated and edited by W. Brinton, M.D.

Medico-Chirurgical Transactions, Vol. 36.

Edinburgh Monthly Journal of Medical Science, from January 1853 to December 1858.

Anatomical Plates of Nerves and Vessels of the Human Body, by Jones Quain, M.D., and William J. E. Wilson. 2 vols.

A Descriptive Catalogue of Preparations, illustrative of the Diseases of the Ear, in the Museum of Joseph Toynbee, F.R.S., London, 1857.

Illustrations of Surgical Anatomy, with Explanatory References founded on the Work of M. Blandin, by J. G. M. Burt, Edinburgh, 1831.

From H. B. Montgomery, L.R.C.S.I.

An Epitome of Materia Medica and Therapeutics for Junior Students, by the Author.

By the British Association.

Report of the Twenty-Sixth Meeting of the British Association for the Advancement of Science, held at Cheltenham in August 1858, London, 1857.

APPENDIX T.

*List of Donations to the Museum Grant Medical College.
Session 1858-59.*

Presented by Dr. Colvill.

Depressed Fracture of Cranium. Corresponding portion of Brain and Membranes.

Presented by Dr. Turner.

A Specimen of Abscess of the Liver, with a part of the adjoining Lung.

Presented by Mr. Bhow Dajee,

A Section of a large (Myeloid?) Tumour.

Presented by the Rev. W. K. Fletcher.

A recent Specimen of the Civet Cat.

Presented by Dr. Buist.

A large Rock Snake.

Presented by Dr. J. Mackenzie.

A Specimen of Aneurism of the Aorta.

*Presented by Dr. Bowie (through H. J. Carter, Esq., and the
Bombay Medical and Physical Society).*

A tray of Twenty-six Urinary Calculi, with Descriptions and Remarks.

Presented by Dr. Steinhauser.

A Specimen of Disease of the Foot.

Presented by Surgeon H. D. Glasse.

- A Specimen of Ulceration of the large Intestine.
- Two large Bats.
- A large Centipede.

Presented by — Hunter, Esq.

- A Specimen of Diseased Tarsal Bones.

Presented by H. J. Carter, Esq.

- A Specimen of Ruptured Heart.
- A Foetus in Utero.

Presented by Mr. Dheerajram Dulputram.

- A Cystic Tumour.

Presented by Mr. Atmaram Pandurung.

- A Recent Parrot.

From the Obstetric Institution by Dr. Mead.

- A Foetus and Placenta.

From the J. J. Hospital.

- Parts of Two Tumours of the Scrotum and Hand.
- A Specimen of Molluscum.
- A small Myeloid Tumour.
- A Tumour from the Neck (Colloid Cancer?)
- A Hæmatocele.
- A Specimen of Ostitis and Necrosis of the Femur.
 - Ditto of Fracture and Necrosis of the Femur.
 - Ditto of Ununited Fracture of the Tibia and Fibula.
 - Ditto of Fracture of Radius and Ulna.
 - Ditto of Fracture of the Skull.
 - Ditto of Fracture of the Lower Jaw.
 - Ditto of Ununited Fracture of the Tibia.
 - Ditto of Necrosis of the Temporal Bone.
 - Ditto of Scrofulous Disease of the Tibia.
- A portion of a Cystic Oxide Calculus.

A large Calculus from a Female Patient.

Fourteen Calculi from an Adult European.

A Calculus from a Muratha Patient.

Ditto from a Boy.

Ditto from a Child.

Ditto from an Adult European.

Ditto from a Muratha Patient.

A small Calculus (no history).

Several Urinary Calculi from a Boy.

A Fracture of the Neck of the Humerus.

A Specimen of Fractured Radius.

Ditto of Caries of Carpal Bones.

Ditto of Ossification of the Diaphragm and Pleura.

Ditto of Diseased Heart.

Ditto of Diseased Heart and Kidneys.

Ditto of Diseased Heart.

Ditto of Diseased Heart and Kidney.

Ditto of Cirrhosis of the Liver.

Ditto of Fracture of the Tibia and Fibula.

Presented by the Curator.

A Specimen of Sub-peritoneal Ecchymosis.

Ditto of Ulceration of the Patella.

Ditto of Sanguineous Apoplexy of the Brain.

Ditto of Hydatid Cysts.

The Ethmoid and Turbinate Bones of the Dog.

The Hyoid Arch of the Civet Cat.

The Odoriferous Glands of the Civet Cat.

The Poison Gland of the Cobra.

The Spinal Cord of a Lizard.

A Preparation showing various Conditions of the Frontal Sinus.

A Preparation showing the veins of the Diploe.

The Temporal (two) and Sphenoid Bones, named and mounted.

A Preparation of the Nerves of the Tongue and Larynx.

A Preparation of the Cartilâges of the Larynx, articulated and named.

A Preparation of the Dorsum of the Tongue.

Various.

A Curious Caterpillar.

Ditto Insect.

A Monstrosity in the Fœtal Pig.

A Set of Ligaments prepared by the First Year's Students, for use in the Dissecting-room.

H. VANDYKE CARTER, M.D.,
 Officiating Curator of the Museum, G. M. C.

APPENDIX U.

*Proceedings of the Grant College Medical Society, during
the Session 1858-59.*

Minutes of a Meeting of the Grant College Medical Society, held
in the College Library, on Saturday, 10th April 1858, at half-
past four P. M.

PRESENT.

Mr. Bhawoo Dajee *Vice-President, in the Chair.*

H. Giraud, M.D. *Vice-President.*

Members.

T. M. Lownds, M.D.; Mr. S. A. de Carvalho; Mr. M. A. Misquita; Mr. Narrajen Dajee; Mr. Cursetjee Framjee; Mr. A. M. C. Continho; Mr. J. C. Lisboa; Mr. Ruttonjee Hormusjee; Mr. Shamrow Narayen; Mr. Balcrustna Succaram; Mr. Muncherjee Sorabjee; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from the Fort Gratuitous Dispensary for February; from the J. J. Hospital Male and Female, the Bañdora and the Meetheebae Hormasjee Dispensaries for March last, were laid on the table.

Present of Books.—Indian Annals of Medical Science No. 9 by the Director General Medical Department.

Mr. Bhawoo Dajee gave a short but interesting account of "Vegetable bitters in the Flora of the Bombay Presidency," illustrating it by laying on the table a large collection of very beautiful drawings and fresh or dried specimens of Plants. He

mentioned about twenty Families of Plants, in which several species are found, used by natives for their bitter principles either as Tonics or Febrifuges.

(Signed) G. R. BALLINGALL,
President.
,, ATMARAM PANDURUNG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society,
held in the College Library, on Saturday, 10th July 1858, at
half-past four P. M.

PRESENT.

Dr. G. R. Ballingall..... *President.*
Mr. Bhawoo Dajee *Vice-President.*

Members.

Mr J. C. Lisboa; Mr P. F. Gomes; Dr. R. Haines; Mr. Shamrow Narrayen; Mr. Ardaseer Jamsetjee; and Mr. Atmaram Pandurung, the *Secretary*.

Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from the Fort Gratuitous Dispensary for March; from the J. J. Hospital Male and Female, the Fort Gratuitous, the Bandora and the Meethebaee Hormasjee Charitable Dispensaries for April, May, and June last, were laid on the table.

Present of Books.—Annual Report of the Grant Medical College for the Year 1857-58 by the Acting Principal of the College.

As there was no Paper, the attention of the Meeting was chiefly engaged in the reading of a few cases from the Monthly Returns, and after discussing some of the points of interest arising therefrom, the Meeting was dissolved.

(Signed) S. A. DE CARVALHO,
in the Chair.
,, ATMARAM PANDURANG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, the 14th August 1858, half-past four P. M.

PRESENT.

Mr. S. A. de Carvalho ; Mr. Anunta Chundroba ; Mr. J. C. Lisboa ; Mr. Narayen Dajee ; Mr. Shamrow Narayen ; Mr. Ardaser Jamsetjee ; Mr. A. M. C. Continho ; Mr. Moreshwar Janardun ; Mr. Cursetjee Framjee ; Mr. Muncherjee Sorabjee ; and Mr. Atmaram Pandurung, the *Secretary*.

In consequence of the unavoidable absence of the President, and in the absence of the Vice-Presidents, Mr. S. A. de Carvalho was voted to take the Chair.

The Proceedings of the last Meeting were then read and confirmed.

The Monthly Returns from the J. J. Hospital Male and Female, the Bandora, and the Meethebaee Hormasjee Charitable Dispensaries for July last were read and laid on the table.

The Secretary read letters from Mr. P. S. Mootooswamy, of Madras, forwarding his subscription ; and from Dr. Impey, intimating his withdrawal from the Society.

Proposed by the Secretary and seconded by Mr. Shamrow Narayen, that Dr. H. V. Carter be elected a member of the Society.

Mr. Anunta Chundroba then read "Notes on two cases where constant and troublesome Hiccup was a prominent symptom." Gastric irritation was well marked in one, not so in the other. Both yielded to counter irritation and sedatives, soda and hydrocyanic acid. Chloric ether, and other antispasmodics administered in one case, stated to have been relieved by them on some former occasions, failed. Mr. Anunta concluded by recommending that the plan of treatment found successful in these cases should be tried before antispasmodics, even where no gastric irritation is present.

Mr. Ardaseer Jamsetjee read a case of Jaundice with Delirium Tremens, and one of Intermittent Fever with enlarged Spleen in

in a Parsee child of $2\frac{1}{2}$ years of age. Whether the delirium in the former was or was not a consequence of the jaundice had to be decided. The history of the case and symptoms led him to the opinion of its being Delirium Tremens, and the effect of the treatment adopted under this supposition proved it correct. After discussion on some of the points of interest in the several cases read (Mr. Balcrustna Succaram's case of Erysipelas being postponed to be read at the next Meeting), votes of thanks were accorded to Mr. Anunta Chundroba and Mr. Ardaseer Jamsetjee, and the Meeting dissolved.

(Signed) S. A. DE CARVALHO,
in the Chair.

„ ATMARAM PANDURUNG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, 11th September 1858, at half-past four P. M.

PRESENT.

J. Peet, M.D.; C. C. Mead, Esq.; Mr. S. A. de Carvalho; Mr. Anunta Chundroba; Mr. J. C. Lisboa; Mr. Muncherjee Sorabjee; Mr. Narayen Dajee; Mr. Shamrow Narayen; Mr. A. M. C. Continho, and Mr. Atmaram Pandurung, the *Secretary*.

In consequence of the absence of the President and the Vice-President, Mr. S. A. de Carvalho was voted to the Chair.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from the Fort Gratuitous for July, and of the Bandora and the Meetheebae Hormasjee Charitable Dispensaries for August last, were read and laid on the table.

Letters received from the Calcutta and the Madras Medical Colleges, acknowledging the receipt of copies of the Society's Proceedings of the Session of 1857-58.

Dr. H. V. Carter was duly elected a Member of the Society.

Mr. Continho read an account of a case of Fibrous Tumour of the breast removed, and of a case of miscarriage, followed by decomposition of the placenta and hæmorrhage. The case of the tumour was remarkable as illustrative of the difficulty in the diagnosis of malignant and non-malignant tumours, especially in their early stage, when the characteristic symptoms, as regards hardness, mobility, size of the gland, pain, state of the skin, the nipple, the superficial veins, the axillary glands, and the cancerous cachexia, are not present. In the second case miscarriage occurred in a female aged 32, in the fourth month of her third pregnancy. The placenta was retained for three days, then passed in pieces, followed by flooding.

Mr. Narayen Dajee then read notes of a case of Uterine Neuralgia occurring in a young, but delicate Parsee female, with Amenorrhœa, in which the usual mode of administering opiates, both internally and externally having failed, the practice recommended by Dr. Felt, in *Lancet* No. XXI., May 22nd 1858, of spreading morphia on cotton-wool and the whole folded up in a bit of muslin and placed on the os uteri, was tried with prompt and permanent relief. Mr. Balcrustna Succaram not being present, his case was not read. Votes of thanks having been given to Messrs. Continho and Narayen Dajee, the Meeting was dissolved.

(Signed) G. R. BALLINGALL,

President.

„ ATMARAM PANDURUNG;—

Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, 9th October 1858, at half-past four P. M. •

PRESENT.

Dr. G. R. Ballingall *President.*

Dr. H. Giraud and Mr. Bhawoo Dajee. . *Vice-Presidents.*

Members.

Dr. J. Peet; Mr. S. A. de Carvalho; Mr. Anunta Chundroba; Mr. J. C. Lisboa; Dr. H. V. Carter; Mr. Narayan Dajee; Mr. Muncherjee Sorabjee; Mr. Dossabhoy Bazunjee; Mr. Ardaseer Jamsetjee; Mr. A. M. C. Continho; Mr. Hormasjee Bazunjee; Mr. Shamrow Narayen; Mr. Moreshwar Janardin; Mr. Cursetjee Framjee; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from the J. J. Hospital Male and Female Dispensary for August and September, the Bandora and the Meethebaee Hormasjee Charitable Dispensaries for September last, were read and laid on the table.

Mr. Dheerajram Dulputram forwarded a short account of three interesting cases treated at the Bandora Charitable Dispensary, viz. a case of "Strangulated Hernia," another of "Plastic operation," and the third of "Lacerated wound."

Mr. Dossabhoy Bazunjee read an account of a case of Fracture of Ribs, Clavicle, and Thigh, with *post-mortem* examination; and of a case of Remittent Fever with gastric irritation. The injuries in the first were caused by a carriage, and the point of interest brought forward was the circumstance that no wound of any part of the lungs could be discovered to account for the expectoration of blood more or less mixed with mucus, which occurred about twenty-four hours after the accident. The only incident in the second case worthy of notice, was a slow and tedious recovery, owing to the complication of gastric irritation.

Mr. Bhawoo Dajee then gave an interesting account of two plants, the *Gloriosa Superba* and the *Aconitus Ferox*, the latter common in upper Hindoostan, and the former on this side of the country, both being styled the *Bach-Nag*. He described their botanical characters as well as their medical properties and uses, in which latter, a great resemblance to colchicum was pointed out. The account was illustrated by the living specimen, the *Gloriosa Superba* being laid on the table.

After a vote of thanks had been accorded to Messrs. Dheeraj-ram Dulpuram, Dossabhoy Bazunjee, and Bhawoo Dajee, the Meeting was adjourned.

(Signed) G. R. BALLINGALL,
President.

„ ATMARAM PANDURUNG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society,
held in the College Library, on Saturday, 13th November 1858,
at half-past four P. M.

PRESENT.

Dr. G. R. Ballingall..... *President.*
Mr. Bhawoo Dajee *Vice-President.*

Members.

Mr. S. A. de Carvalho ; Mr. J. C. Lisboa ; Mr. P. F. Gomes ;
Mr. Narayen Dajee ; Mr. Shamrow Narayen ; Mr. M. A. Misquita ;
Mr. A. M. C. Continho ; Mr. Moreshwar Janardin ; Mr. Cur-
setjee Framjee ; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from the Fort Gratuitous Dispensary
for September and October ; from the J. J. Hospital Male and
Female, the Bandora and the Meetheebae Hormasjee Dispen-
saries for October, were laid on the table.

Mr. De Souza, in charge of the Shahbunder Dispensary, for-
warded his remarks on the return of patients that had attended
the Dispensary during September last. The return itself was
not forwarded. In the remarks, an account was given of a case
of Imperforate Anus, in which an operation had been performed
with immediate relief.

Mr. Gomes read a case of injury of the head, from which,
although there was considerable hæmorrhage through the ear for
several days, and afterwards oozing of reddish serum, the patient

recovered. He also read a case of Chylo-serous Urine, in which the symptoms were well marked and very severe, but which, after variety of treatments, recovered spontaneously. Mr. Gomes then read a continuation of his topographical sketch of Salsette, in which he gave an interesting account of the principal vegetable productions of the island, dilating chiefly on the uses to which the cocoanut and brab trees are, or may be applied.

After according the best thanks of the Meeting to Mr. Gomes and Mr. De Souza for their interesting communication, the Meeting was dissolved.

(Signed) G. R. BALLINGALL,
President.
,, ATMARAM PANDURUNG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, 11th December 1858, at half-past four P. M.

.. PRESENT.

Dr. G. R. Ballingall..... *President.*

Dr. H. Giraud..... *Vice-President.*

Members.

J. Peet, M.D.; C. C. Mead, Esq.; Mr. S. A. de Carvalho; Mr. J. C. Lisboa; Mr. Narayen Dajee; Mr. Muncherjee Sorabjee; Mr. A. M. C. Continho; Mr. Burjorjee Ardaseer; Mr. Cursetjee Framjee; Mr. Cowasjee Nowrojee; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from Sunkersett's Charitable Dispensary for September and October last, from the J. J. Hospital, the Methcebaee Hormasjee, and the Bandora Charitable Dispensaries for November last, were laid on the table.

Mr. Dheerajram Dulputram sent an account of an operation for Entropium performed by him at the Bandora Charitable Dispensary.

Mr. Mootooswamy sent an interesting account of two cases treated by him at the Civil Hospital at Manargoody, in the Madras Presidency. One was a case of sloughing caused in an inflamed breast of a nursing young female by a narrow-mouthed metallic vessel having been used instead of a cupping-glass. It adhered so firmly that it was not removed until sawn through on admission into the hospital, three days after its application. The second was a case of Hydrophobia following, as was believed, the bite of a mungoose.

Mr. Bhawoo Dajee being unwell, the paper on the botanical character and medical properties of *Gloriosa Superba* was not read.

Thanks were proposed to the contributors of the several papers, after which the Meeting was dissolved.

(Signed) G. R. BALLINGALL,
President.
„ ATMARAM PANDURUNG.
Secretary.

Minutes of the Annual Meeting of the Grant College Medical Society, held in the College Library, on Saturday, the 15th January 1859, at half-past four P. M.

PRESENT.

Dr. G. R. Ballingall, M.D..... President.

Members.

J. Peet, M.D.; Mr. S. A. de Carvalho; Mr. J. C. Lisboa; Mr. Muncherjee Sorabjee; Mr. M. A. Misquita; Mr. Ardaseer Jamsetjee; Mr. Shanrow Narayen; Mr. A. M. C. Coutinho; Mr. P. T. Gomes; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from Sunkersett's Charitable and the Fort Gratuitous Dispensaries for November last; from the J. J. Hospital Male and Female, the Meetheelace Hormasjee,

and the Bandora Charitable Dispensaries for December last; also a Return from the Bandora Charitable Dispensary for the whole year of 1858, were laid on the table.

Letters were read from Dr. G. C. M. Birdwood tendering his resignation; and from Mr. Burjorjee Dorabjee, from London, offering his services to the Society, as well as to individual members, to become their agents in London to buy for them books, periodicals, &c. Mr. Burjorjee's offer was referred to the Committee.

Present of Books.—The Indian Annals of Medical Science No. X., July 1858, presented by the Director General Medical Department.

The retrospective address was then delivered by Dr. G. R. Ballingall, the retiring President, who, after briefly noticing the papers read during the Session, exhorted the Members to increased zeal and activity; and expressed his hope that, instead of the papers being detached cases, they might, in future, be written on subjects requiring the exercise of higher faculties of the mind. A vote of thanks was unanimously given to the President, being proposed by Mr. Carvalho and seconded by Mr. Atmaram Pandurang. A vote of thanks was also proposed to the Secretary by Dr. Ballingall and seconded by Mr. Carvalho, and carried unanimously.

The election of the new Office-bearers then took place, as follows:—

Dr. J. Peet, *President*.

M. S. A. de Carvalho and Mr. Gomes, *Vice-Presidents*.

Mr. J. C. Lisboa; Mr. Anunta Chundroba; and Mr. Bhawoo Dajee, Members of the Committee of Management; and Mr. Atmaram Pandurang re-elected *Secretary*.

After recording the best thanks of the Society to the Director General Medical Department, for presenting the volume of the Indian Annals of Medical Science, the Meeting dissolved.

(Signed) J. PEET,
President.

„ ATMARAM PANDURUNG,
Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, the 12th February 1859, at half-past four P. M.

PRESENT.

J. Peet, M.D. *President.*

Mr. S. A. de Carvalho *Vice-President.*

Members.

H. Giraud, M.D. ; H. V. Carter, M.D. ; G. R. Ballingall, M.D. ; Mr. J. C. Lisboa ; Mr. Narayen Dajee ; Mr. Muncherjee Sorabjee ; Mr. Shamrow Narayen ; Mr. A. M. C. Continho ; Mr. Cowasjee Nowrojee ; and Mr. Atmaram Pandurang, the *Secretary.*

Dr. Gomes, of Goa, a visitor.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns of Sunkersett's Charitable Dispensary for December last, of the J. J. Hospital Male and Female, the Bandora, and the Meetheebae Hormasjee Charitable Dispensaries for January last ; also remarks on the Monthly Return of the Shakhbunder Dispensary for December last, were laid on the table.

Dr. Ballingall presented to the Society all the Numbers of the Indian Annals of Medical Science (from Nos. I to X.), except No. IV.

Resolved, that the Subscription of the non-resident Members be reduced from Rs. 6 to Rs. 3 annually, as proposed by the Committee.

Mr. Bazunjee Rustomjee sent an account of three cases :—one of injury of the head by a fall, causing extensive laceration of the cerebellum, extravasation of blood at the base of the skull, and fractures of the occiput at the foramen magnum, and proving fatal in about 20 hours. The second was a case of Puerperal Mania, occurring nine days after delivery, and accompanied with fever, in a delicate young female of low caste, who destroyed her infant, and was subsequently sent to Mr. Bazunjee Rustomjee for medical opinion of her state. The last case was Traumatic Glossitis in a

child 7 years of age, in which the tongue was wounded by a foreign body whilst playing. It was successfully treated by the free application of lunar caustic.

Mr. Carvalho then read his notes on a case of Paraplegia that was under his observation from April 1858 to January 1859. The symptoms were obscure at first, but subsequently were well-marked, indicating softening of the chord, and consisted of tenderness of the lower part of the spine, paralysis, and partial anæsthesia of the lower extremities, chiefly the left,—paralysis of the bladder, requiring the catheter to empty it,—and torpidity of the bowels. He was freely leeches, blistered, and brought under the influence of mercury on two or three occasions, as the symptoms re-appeared. When he finally left this for Italy, his native country, he was able to walk, but with rather an unsteady gait, and to empty his bladder in a full stream.

There was one symptom in this case worthy of notice, viz. a severe pain along the sternum and sides of the chest, and which was present from the very first. It was mistaken for rheumatism, and from which, as well as from the ascertained diathesis of the patient's father, Mr. Carvalho was led to believe him of a rheumatic diathesis, although there was no other evidence of rheumatism present. After the best thanks of the Meeting had been accorded to the several contributors of papers, and to Dr. Ballingall for his present of books, the Meeting was dissolved.

(Signed) J. PEET,

President.

„ ATMARAM PANDURUNG,

Secretary.

Minutes of a Meeting of the Grant College Medical Society, held in the College Library, on Saturday, 12th March 1859, at half-past four P. M.

PRESENT.

J. Peet, M.D. President.

Members.

Mr. J. C. Lisboa ; Mr. Muncherjee Sorabjee ; Mr. Balcrustna Chintoba ; Mr. Moreshwar Janardin ; Mr. A. M. C. Continho ; Mr. Cowasjee Nowrojee ; Mr. Cursetjee Framjee ; Mr. Dheerajram Dulputram ; and Mr. Atmaram Pandurung, the *Secretary*.

The Proceedings of the last Meeting were read and confirmed.

The Monthly Returns from Sunkersett's Charitable Dispensary for January and February, from the J. J. Hospital Male and Female, the Bandora and the Meetheebae Hormasjee Charitable Dispensaries for February ; also remarks on the January return of the Shahbunder Dispensary, were laid on the table. The last contained a brief account of two lithotomy operations performed by Mr. De Souza at the Dispensary at Shahbunder.

Mr. Bazonjee Rustomjee sent an account of three interesting cases :—one of ulcerated Medullary Tumour, which was re-produced after having been removed ; another of osteo encephaloma of right inner ankle, in which the leg was amputated and the disease did not recur ; a third, of Fibrous Tumour, which re-appeared after being removed, and attained its former size in six months.

Mr. Muncherjee Sorabjee then read notes on two cases simulating Hysteria in males. The patients were of 16 and 20 years of age, respectively. Mr. Muncherjee disliked the term hysteria, but used it for want of another appropriate one. He believed that in these cases the nervous system, was preternaturally irritable from depression and exhaustion, caused by constant irritation of the generative organs. After some discussion as to the influence of such habits upon the nervous system, a vote of thanks was accorded to Messrs. Rustomjee Bazonjee and Muncherjee Sorabjee, and the Meeting dissolved.
